

I am a registered voter and tax paying member of my community and I would like to comment on the possible replacement of K-LOVE radio stations by LPFM stations. I have three young boys who want and need to listen to K-LOVE on a regular basis. Without this station we would have to choose from other stations that play rock and rap music. These forms of music often contain angry themes full of sex and violence.

We recently had a new tower in our location allowing us to better receive the K-LOVE station. We are now able to listen to K-LOVE at home as well as in the car which is a real blessing to us and our friends and neighbors.

I thoroughly believe the positive and encouraging theme of K-LOVE is greatly needed and appreciated by the public.

Thank you for your time.\

Yours in Christ,
Mrs. Kahti Benson
